In the Matter of:

THE NOTICE OF PURCHASED GAS)
ADJUSTMENT FILING OF WESTERN) CASE NO. 8839-W AMENDED
KENTUCKY GAS COMPANY)

O R D E R

On December 1, 1983, the Commission issued its Order in Case No. 8839 approving certain adjustments in rates and providing under certain conditions for the further adjustment of such rates when the wholesale cost of gas is increased or decreased or a refund is received.

On January 9, 1986, Western Kentucky Gas Company ("Western") notified the Commission that its combined wholesale cost of gas had been decreased by its suppliers, Tennessee Gas Pipeline Company ("Tennessee Gas"), Texas Gas Transmission Corporation ("Texas Gas") and local producers, effective February 1, 1986. On January 27, 1986, Western notified the Commission that the change in rates from Tennessee, an increase, would not be placed into effect and submitted with its notice certain information in compliance with its purchased gas adjustment clause on file with this Commission.

After reviewing the record in this case and being advised, the Commission is of the opinion and finds that:

(1) Western's notice of January 27, 1986, set out certain revisions in rates which Western proposed to place into effect, said rates being designed to pass on the wholesale decrease in price from its suppliers in the amount of \$4,872,228 or 13.44 cents per Mcf.

(2) Tennessee Gas filed increased rates with the Federal Energy Regulatory Commission ("FERC") to be effective September 1, 1985. Because of the retroactive nature of this increase, Western requested an effective date of February 1, 1986. These rates were not placed into effect, however, and should not be considered in the adjustment of Western's rates.

(3) Texas Gas filed decreased rates with the FERC to be effective February 1, 1986.

(4) Western's adjustments in rates under the purchased gas adjustment provisions approved by the Commission in its Order in Case No. 8839, dated December 1, 1983, are fair, just and reasonable and in the public interest and should be effective with gas supplied on and after February 1, 1986.

(5) Western should submit copies of each gas purchase contract and all other agreements, options or similar such documents, and all amendments and modifications thereof related to the procurement of gas supply. Any changes in the documents, including price escalations or any new agreements entered into after the initial submission, should be submitted at the time they are entered into. Where gas is purchased from utility-owned or controlled sources or the contract contains a price escalation

clause, those facts should be noted and Western should explain and justify them in writing.

IT IS THEREFORE ORDERED that:

(1) The rates in the Appendix to this Order be and they hereby are authorized effective with gas supplied on and after February 1, 1986, and do supersede the rates authorized in the Commission's Order of January 20, 1986.

(2) Within 30 days of the date of this Order Western shall file with this Commission its revised tariffs setting out the rates authorized herein.

(3) Within 20 days of the date of the previous Order in this case Western shall supply the supplier contract information requested herein and shall comply with all provisions of that request.

Done at Frankfort, Kentucky, this 3rd day of February, 1986.
